January 2018

Newsletter/ Nuusbrief

2018! A new year, new challenges and new opportunities! POMASA wishes you all the best!

New registrations

New registrations are always good news! Marksman 240 SC (Methoxyfenozide) and Sporekill (DDAC) are now registered for use on pomegranates.

The label information for Marksman 240 SC will be distributed via e-mail and the Sporekill information will follow soon.

FCM Moneringsopleiding/ Training for FCM Monitoring

Registrasie sluit Vrydag 19 Januarie 2018 om 12:00

Registration close on Friday, 19 January 2018 at 12:00

Die korrekte Identifisering en Monitering van Vals Kodlingmot (FCM) op granate is uiters belangrik en daar was versoeke vir opleiding op hierdie terreine.

POMASA het daarom 'n kursus gereël om hierdie kwessies aan te spreek.

Die kursusbesonderhede is soos volg:

Datum: Donderdag, 25 Januarie 2018

Tyd: 08:30 tot ongeveer 16:00

Teorie gaan plaasvind vanaf 8:30

Ligte middagete sal voorsien word

Praktiese sessie in 'n boord na middagete (aanwysings na boord volg)

Plek: Wamakersvallei Opleidingsentrum, Breedtstraat 10, Wellington

Aanbieder: Gideon van Zyl (ProCrop)

Koste: R950.00

Training for FCM Monitoring

The correct identification and monitoring of False Codling moth (FCM) on pomegranates is very important and there were requests for training on these aspects.

POMASA organised the following course. See the details below.

Date: Thursday, 25 January 2018

Time: 08:30 to 16:00

Theory from 8:30

Light lunch included

Practical session in orchard after lunch (directions will be given)

Venue: Wamakersvallei Opleidingsentrum, 10 Breedt Street, Wellington

Presenter: Gideon van Zyl (ProCrop)

Cost: R950.00

Orchard monitors and managers welcome!
